Education

Indian Institute of Information Technology Kottayam

2023 – 2027

B.Tech in Computer Science and Engineering

Relevant Coursework

- Data Structures
- Algorithms
- OOP
- DBMS
- Operating Systems
- Computer Organization
- Machine Learning
- Artificial Intelligence
- Data Analytics
- Computer Networks
- Software Engineering

Experience

Infoz IT Solutions

May 2025 – July 2025

Data Science Intern

- Worked on data preprocessing, cleaning, and analysis using Python, Pandas, and NumPy.
- Assisted in developing machine learning models for predictive analytics and classification tasks.
- Performed exploratory data analysis (EDA) to identify trends and generate actionable insights.
- Created visualizations and reports to support data-driven decision making.

Projects

InsightForge AI – Multi-Agent Hybrid RAG Research Assistant

GitHub

- Built a multi-agent AI research assistant using LangGraph with Planner, Router, Research, Document Search, Fact Checker, and Writer agents.
- Developed a Hybrid RAG pipeline combining semantic PDF retrieval (ChromaDB + HuggingFace Embeddings) with real-time Tavily web search.
- Implemented intelligent query routing and integrated Groq-hosted Llama 3.3 models for context-aware report generation.
- Developed a Streamlit interface supporting PDF uploads, source citations, and downloadable research reports.

Parking Management System — MERN Stack

GitHub

- Developed full-stack parking slot booking platform using React.js, Node.js, Express.js, and MongoDB
- Built REST APIs, JWT authentication, and Stripe payment integration
- Optimized backend workflows and database schema for scalability

Customer Feedback Sentiment Analysis — NLP, Python

GitHub

- Built NLP-based sentiment analysis system using Python and TF-IDF
- Performed preprocessing, feature extraction, and sentiment classification
- Deployed Streamlit application for real-time sentiment prediction

Technical Skills

Languages: C++, Java, Python, JavaScript, SQL

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js

Databases: MySQL, MongoDB, ChromaDB

AI/ML: Machine Learning, Deep Learning, NLP, LangChain, RAG

Tools: Git, GitHub, VS Code, Linux, Postman

Achievements

- Solved 250+ DSA problems across LeetCode, CodeChef and Codeforces.

Certifications

LLM Engineering and AI Agents – Udemy

Certificate

AICTE Virtual Internship – AI & Data Analytics

Certificate

Data Science Internship – Infoz IT Solutions

Certificate

Oasis Infobyte Web development Internship

Certificate
